

Declaration of the Data User (GIS Layer)

For the GIS layers as provided by the Global Runoff Data Centre (GRDC) the undersigned declares that he/she is cognisant of the complete content of the present form and is responsible for an corresponding use of the files provided by the GRDC. The undersigned agrees to use the files under the following conditions:

Disclaimer: While the GRDC makes every effort to eliminate errors from the files, the GRDC reserves the right not to be responsible for the topicality, correctness, completeness or quality of the information provided. Liability claims regarding damage caused by the use of any information provided, including any kind of information which is incomplete or incorrect, will therefore be rejected. Neither the GRDC nor its sponsors can be held responsible for the consequences of the use of the files.

Continuation: The offer of these files is not-binding and without obligation. Parts of the files or all files might be extended, changed or partly or completely deleted or discontinued by GRDC without separate announcement.

Copyright: The copyright for all information in the files created by GRDC is reserved. Usage of the GIS layers is allowed under the following conditions:

- Redistribution of the files is not permitted, they may not be transferred either in part or total to third parties or to the general public (e.g. by electronic media), without the written consent of the GRDC;
- The files are not used for commercial purposes, without the written consent of the GRDC;
- The files are available for personal use of the signing person;
- The files are available for internal use by staff working in the organisation and under the supervision of the signing person.

Use in Publications: The files may be used in publications, provided:

- GRDC as the originator of the layers is cited as specified in more detail below;
- the inherent geometrical and attribute data cannot be simply extracted in electronic form. (This is generally not the case e.g. in printed material and pixel images. However, if used in e.g. internet map services, effective configurations have to be made accordingly.)

Citation: In all publications using the files, credit will be given to GRDC by citing them as:

Global Runoff Data Centre (YYYY): *[Name of the requested GIS Layer as given in the Order Form]*. **GRDC in the Bundesanstalt fuer Gewaesserkunde, 56068 Koblenz, Germany, <http://grdc.bafg.de>**

In graphics and electronic publications citation may alternatively be abbreviated using the clickable GRDC Logo linked to the GRDC homepage as follows:

[Name of the requested GIS Layer as given in the Order Form] provided by <GRDC logo + clickable link to GRDC homepage>

Save storage of files: The data set will be not accessible to unauthorised persons and, after completion of the specified studies, the data set will be kept separate from the general data processing facilities.

Voucher copy: After completion of publications involving the use of the GRDC GIS Layers, be it in print or digitally, voucher copies will be made available to the GRDC by either sending two paper copies or an electronic document (PDF, DOC) or by providing the link to a web page citing the used GRDC GIS Layers.

Legal validity of this form: If sections or individual terms of this form are not legal or correct, the content or validity of other parts remain uninfluenced by this fact.

I, as the representative of the requesting organisation, agree to the conditions stated in the “Declaration of the Data User” above.
